

An **international work environment** with a strong entrepreneurial spirit

New way of working

Inspiring, challenging, innovative and fun

For us at DLL, the office is a place where we come together and collaborate in a way that is inspiring, challenging, innovative and fun. Work is not an office you go to but something you do – in the office, at home, at the airport or somewhere else.

Flexible workplaces

At our Nordic offices we have flexible workplaces with different types of seating arrangements that give our employees the opportunity to perform their work in the way that suits them best.

More than 10.000 hours volunteer

Work

Many of our employees are engaged in different local and global initiatives to improve the society. Our employ-

ees are allowed to do two days volunteer work per year during working hours.

5.500 employees

At DLL you will meet colleagues from many countries and backgrounds, each with unique abilities and specialist area.

A new way to work

DLLs work environment creates opportunities for our employees to perform at the highest level. Whether you work at home, at the train or in the office.
